

POURING BUCKET

HEAVY DUTY, YET LIGHTWEIGHT.

THE POURING BUCKET IS AVAILABLE IN MANY SIZES TO MEET YOUR SPECIFIC REQUIREMENTS

Pouring buckets are available in 1 – 5 yard sizes (in 1/2 yard increments) and can be customized to fit your specific application.

Whether you're new to precast concrete or an established producer, our adjustable systems help you expand capabilities, improve efficiency, and meet changing market demands with confidence. A range of equipment and components is available to match your production goals and market requirements. Together, they form a flexible, scalable system that grows with your business.

STANDARD FEATURES

- Heavy-duty, yet lightweight construction
- Clamshell gates
- 7' tall

OPTIONS

- Access ladder for hooking/unhooking and easy access for cleaning
- Handle extension for easy pouring of tall forms
- Air or hydraulically operated clamshell gate
- Rubber chute that attaches to the clamshell gate for pouring accuracy

For better viewing, all guards, safety devices, and signs are not necessarily shown. Some of the equipment shown or described throughout this brochure is available at extra cost. Besser Company reserves the right to change or improve product design and specifications without prior notice. Since the time of printing, some of the information in this brochure may have been updated, ask your Besser sales representative for details.

A clamshell gate provides accurate dispensing of concrete.
