

MASONRY & HARDSCAPE

FROM THE FIRST BLOCK MACHINE TO YOUR FIRST CHOICE.

Besser Company's Foundation: For over 120 years, Besser has been at the forefront of concrete products machinery. It all began with our founder's invention of the first hand-tamp block machine, revolutionizing the industry. We've continued to grow and evolve—always within the concrete products sector. After all, concrete is the perfect building material!

Besser Today: A Legacy of Quality and Innovation

Our mission remains the same—delivering innovative solutions to help producers create the world's finest building and hardscaping products. With machines built to last, we take pride in continuing to support customers who invested in Besser equipment decades ago.

The Future of Besser: Advancing with You

Innovation drives us forward. We adapt to industry changes, always seeking new ways to enhance your masonry and hardscape production systems. When you choose Besser, you're investing in smarter technology, superior performance, and a future built to last.

Backed by more than 120 years of expertise, we're global leaders in innovation—constantly finding ways to further our industry and better meet your needs.

WE'VE GOT CONCRETE COVERED.

When it comes to producing masonry and hardscape, we have solutions for every step of the process, from batching and production machines to curing and cubing. We can help you make any product from retaining walls, bricks, and architectural units to slabs and pavers. We continuously set the bar high in our industry by making equipment that lasts and produces high-quality units. That's the Besser standard.

Batching and Mixing

Batching is where it begins—raw materials are precisely measured and mixed to create high-quality concrete. At Besser, our equipment provides consistent concrete quality at this critical stage to ensure manufactured products always meet the highest standards.

Concrete Products Machines

The concrete products machine is the core of your operation, shaping the success of your production. Besser offers a range of machines designed to meet your specific needs—whether you require high output, versatility, or both. Built for durability and precision, our machines deliver consistent, high-quality concrete products, cycle after cycle.

Product Handling

Besser provides a range of product handling solutions designed to move your freshly made, green concrete products to and from the curing area, as well as handle and package cured products for shipment. Our systems are tailored to your facility's layout and final product requirements, ensuring seamless, efficient, and reliable operations.

Curing

Every curing system from Besser is expertly engineered to provide precise control of temperature and humidity. These critical conditions ensure your concrete products achieve optimal strength, performance, and appearance, meeting the highest industry standards.

Value Added Products

Beyond just producing concrete products, Besser helps you maximize the value of your production facility. We offer a variety of product finishing solutions—splitters, grinders, polishers, pitching machines, tumblers, in-line aging systems, and more. These systems increase the value of your products and expand your market opportunities.

Molds

At Besser, we don't just make molds—we engineer performance. From small pallet to big board molds, we specialize in every aspect of the production process, including the machines that use them. Our thorough understanding of concrete performance throughout the entire machine cycle allows us to design and manufacture high-quality molds.

MAKE IT WITH BESSER

Whether you're new to the industry or a seasoned professional, Besser is the **trusted, single-source supplier for concrete products manufacturing equipment and services**. From day one, we're with you—guiding your success with customized solutions and 24/7 expert support. Our partnerships begin long before the sale and continue well beyond, built on innovation, reliability, and a commitment to helping your business thrive.
